

Environmental Impact & RFR Compliance Statement

K211FX is located at an established communications site that is in compliance with all environmental impact requirements.

This minor change application proposes a change from channel 211 to channel 208 operating with an ERP of 0.010 kW (V only, non-DA) at an antenna COR AGL height of 22 meters. For a worst case estimation at 2 meters above ground level the RFR is no more than 0.4% of the general population/uncontrolled MPE limit.

There are no other broadcast facilities at the site.

RFR hazard signs are posted at the site and the site has restricted access to only authorized personnel. The applicant certifies that in cooperation with other users of the site all authorized personnel will be protected from RFR exposure in excess of FCC guidelines while accessing any controlled exposure area, including the tower, by either reducing power or ceasing operations. Information pertaining to the contact representative of the facility is posted.
