## ENGINEERING STATEMENT

The engineering data contained herein have been prepared on behalf of TRINITY BROADCASTING OF TEXAS, INC., permittee of KDTX-DT, Channel 45 in Dallas, Texas, in support of this supplement to its Application for Modification of Construction Permit BMPCDT-20030417ABJ, to address the Commission's concerns regarding the coverage of the station with respect to other market stations, as well as an interference issue with regard to the allotment facility of KTAQ-DT.

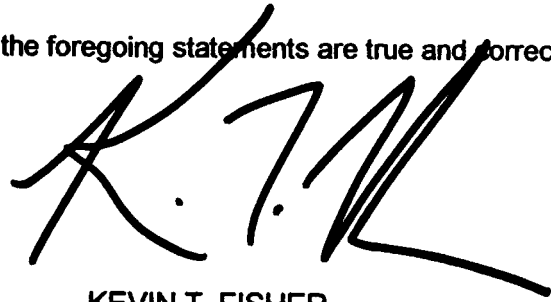

The service coverage of the KDTX-DT facility proposed in BMPCDT-20030417ABJ does not exceed the coverage of the largest authorized DTV station in the Dallas television market. Below is a tabulation of three other DTV facilities in the market that have coverage areas larger than that proposed for KDTX-DT:

<u>Call Sign</u>	<u>Power (kw)</u>	<u>HAAT (meters)</u>	<u>41 dbμ coverage Area (sq. km.)</u>
KXTX-DT (CP)	1000	494	40,597
KDFW-DT (CP)	1000	510	38,175
KDFI-DT (CP)	1000	495	37,589
KDTX-DT (Appl.)	1000	494	35,240

With regard to the allotment facility of KTAQ-DT, Channel 46 in Greenville, Texas, interference from proposed KDTX-DT is in excess of the FCC's standard. The permittee of KDTX-DT has obtained an interference agreement from the owner of KTAQ-DT under which the latter does not object to the pending KDTX-DT proposal.

EXHIBIT A

I declare under penalty of perjury that the foregoing statements are true and correct to the best of my knowledge and belief.

A handwritten signature in black ink, appearing to read 'K.T. Fisher', with a large, sweeping flourish extending from the end.

KEVIN T. FISHER
