Dear Applicant:

We are currently processing your above-referenced application. Our preliminary engineering review reveals that your proposed facility displacement justification does not comply with the Commission's displacement application rules.

In order to prevent the processing of unnecessary displacement applications, you are hereby required to amend your application, within 30 days from the date of this letter, to submit an engineering showing demonstrating that your station is causing or receiving actual or predicted interference from a full power DTV station. Failure to do so may result in the dismissal of your application

Sincerely
