Re: CBS Radio Stations Inc.  
KXNT(AM), North Las Vegas, Nevada  
Facility ID No. 33068  
File No. BP-20080228ABD

Dear Mr. Nguyen:

CBS Radio Stations Inc. ("CBS") respectfully requests an extension of one hundred eighty (180) days, to and including July 27, 2014, in order to allow for issuance of tower registration numbers associated with the above-referenced application.

As explained in e-mails dated October 30, 2013 and January 24, 2014 from Ms. Cynthia Jacobson, Consulting Engineer, to Mr. Joseph Szczesny of the Audio Bureau, when the August 1, 2013 amendment to the above-referenced application was filed, the Federal Aviation Administration was notified of the proposed tower layout change by FAA Form 7460-1, which sought airspace approval for the new six tower configuration. The FAA has since issued a Determination of No Hazard for all six towers. Barring any unforeseen circumstances, this determination will become final on February 17, 2014. Thereafter, antenna structure registrations ("ASR") will be completed, and an amendment will be filed to the above-referenced application providing the new ASR numbers.<sup>1</sup>

---

<sup>1</sup> While CBS expects that the ASR process will be completed by the end of February 2014, out of an abundance of caution CBS requests an extension of 180 days.

Mr. Son Nguyen
