In re: W282AT, Hilton Head Island, SC
BPFT-20110510AEK
Facility ID # 153405

Dear Applicant:

This refers to the above-captioned application for a FM translator W282AT, Hilton Head Island, South Carolina.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1235 (b)(1) since the 60 dBu service contour of the proposed translator is not within the 60 dBu protected contour of primary station WYFH(FM), North Charleston, South Carolina.

In addition, the application proposes an effective radiated power ("ERP") of 250 watts. Section 74.1235(b)(1) states that the maximum allowable effective radiated power with an antenna height above average terrain (HAAT) between 97 meters and 115 meters is 19 watts. Our study reveals that the azimuth at 120° has a HAAT of 113 meters. The application failed to discuss this violation. Therefore, we will dismiss the application.

In light of the above, Application BPFT-20110510AEK is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw
Associate Chief
