**April 2010**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Family Worship Center Church, Inc. ("FWCC"), licensee of FM translator station K216FC, Channel 216D, Palestine, Texas. FWCC has a construction permit (BPFT-20090527AEJ) to make minor changes to the K216FC facilities. As a result of the minor change, the operating channel will be 214D. Therefore, the call sign of the translator changes to K214EQ and this call sign will be referenced hereafter. FWCC herein submits a license application to cover the outstanding permit. Attached as Exhibit A is a calculation of the transmitter power output for FM translator K214EQ.

There are two special operating conditions/restrictions listed on the K214EQ permit. The first condition states that an application for license, FCC Form 350, must be on file prior to commencing program tests with the facilities authorized in the permit. The submission of this instant application satisfies the first condition.

The second condition states that FWCC will reduce the power or cease operation of K214EQ to insure that persons with access to the site are not exposed to radio frequency radiation levels above the FCC's guidelines. FWCC states that it will, in cooperation with other tower users, reduce the power or cease operation of K214EQ, as necessary, to insure that persons having access

to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed all conditions on the K214EQ construction permit have been satisfied.<sup>1</sup>

---

1) The antenna was installed at 104.0 meters above ground level instead of the authorized 105.0 meters. This is within 2.0 meters above and 4.0 meters below the authorized height and complies with the Commission's rules.
