

Point Broadcasting Company
FCC Form 315
Exhibit 20

DEMONSTRATION OF COMPLIANCE WITH MULTIPLE OWNERSHIP RULES

Coloma Mojave LLC (“Coloma Mojave”), the licensee of KCEL (FM), Mojave, California, and Point Broadcasting Company (“PBC”), the proposed transferee of KCEL (FM), hereby demonstrate that the proposed transfer of control fully complies with the Commission’s multiple ownership rules.¹

I. NO CHANGE IN ATTRIBUTABLE MULTIPLE OWNERSHIP

There is no change in multiple ownership compliance arising from this application. Prior to the transfer of control proposed in this application, PBC was already deemed to hold an attributable interest in KCEL (FM) as a result of an existing Local Marketing Agreement (“LMA”) between Coloma Mojave and a PBC affiliate, High Desert Broadcasting LLC (“High Desert”) (See Exhibit 19). PBC’s existing attributable interest in KCEL (FM) (in the form of the LMA) complies with the Commission’s multiple ownership rules, as will its proposed ownership of Coloma Mojave sought by this application.

II. CONTOUR OVERLAP MARKET COMPLIANCE

KCEL (FM) is not located within the geographic boundaries of any Arbitron Metro radio market; rather, it is located in a non-Metro area adjacent to the Los Angeles radio market. Accordingly, compliance with the Commission’s multiple ownership limitations is determined based on the contour overlap method for non-metro areas.

High Desert, in which PBC holds a controlling interest, is the licensee of six radio stations. Three of these stations are located in the Los Angeles Arbitron radio market -- KGKX (FM), Lancaster, California; KOSS (AM), Lancaster, California; and KUTY (AM), Palmdale, California – and three of the stations are located in the same non-Metro area as KCEL (FM) -- KKZQ (FM), Tehachapi, California; KQAV (FM), Rosamond, California; and KMVE (FM), California City, California. While all of the High Desert stations have been considered for purposes of multiple ownership compliance, only two of them, KKZQ (FM) and KQAV (FM), share contour overlaps with KCEL (FM). Accordingly, included hereto as Attachment 1 is a contour overlap analysis prepared by Joel T. Saxberg demonstrating that the transfer of control sought by this application complies with the Commission’s multiple ownership rules.

III. ARBITRON METRO MARKET COMPLIANCE

As noted above, only three of the radio stations licensed to High Desert are located in the Los Angeles Arbitron Metro market. The BIA FCC Geographic Market Definition for Los Angeles, attached hereto as Attachment 2, indicates that there are 89 commercial and noncommercial radio stations in the market. Under the broadcast multiple ownership rules, in a

¹ See 2002 Biennial Regulatory Review – Review of the Commission’s Broadcast Ownership Rules and Other Rules Adopted Pursuant to Section 202 of the Telecommunications Act of 1996 et al., Report and Order and Notice of Proposed Rulemaking, 18 FCC Red 13620 (2003), aff’d in part and remanded in part, Prometheus Radio Project, et al. v. FCC, 373 F.3d 372 (3rd Cir. 2004), stay modified, No. 03-3388 (Sept. 3, 2004) (“Report and Order”).

Point Broadcasting Company
FCC Form 315
Exhibit 20

radio market with 45 or more commercial and noncommercial radio stations, an entity may lawfully own, operate and control up to 8 radio stations, only 5 of which may be in one class. Accordingly, PBC's attributable interest in 1 FM and 2 AM stations in the Arbitron Los Angeles radio market is fully compliant with the Commission's multiple ownership rules.

Previously, however, due to an inadvertent error, four additional stations attributable to High Desert or PBC were listed in the Los Angeles Metro for a brief period of time, despite the fact that all these stations are located outside of the Los Angeles Arbitron market. These additional stations included KCEL (FM) and the three remaining non-Metro area High Desert stations mentioned above. *See* the attached BIA FCC Geographic Market Definition for Los Angeles. As indicated in this Market Definition for Los Angeles, these stations were removed from the Los Angeles Arbitron Metro on May 18, 2010.

While these four stations are no longer listed as part of the Arbitron market, and arguably never should have been, out of an abundance of caution, PBC hereby also addresses multiple ownership compliance based on including these stations in the Los Angeles Arbitron market. This analysis assumes as a "worst case scenario" that these four non-Arbitron Metro market stations are still considered to be listed in the Los Angeles Metro (even though they are not). Accordingly, in this case, PBC's attributable interests in 5 FM and 2 AM stations in the Arbitron Los Angeles radio market is still fully compliant with the Commission's multiple ownership rules.

Currently, neither PBC, High Desert nor any other of PBC's affiliates have any other attributable interests in the Los Angeles Arbitron radio market. However, an application is pending before the FCC seeking Commission consent to the assignment of license of KDAY (FM) in Redondo Beach, CA to SoCal935 LLC (See File No: BALH-20101223ACF). KDAY (FM) is located in the Los Angeles Arbitron market, and through common ownership, that FM station would also be attributable to PBC under the multiple ownership rules. Under this scenario, again assuming that the Commission deems the four non-Arbitron Metro stations discussed above to be listed in the Los Angeles market, High Desert has proposed to assign KMVE (FM) to an independent third party prior to SoCal935 LLC's acquisition of KDAY(FM). Through this assignment of KMVE, which the FCC has already approved in File No: BALH-20101227AAF, PBC would remain in compliance with the multiple ownership limits.

ENGINEERING STATEMENT OF JOEL T. SAXBERG

This engineering report was prepared for Point Broadcasting Company, which has attributable interests in two AM and five FM commercial broadcast stations, serving an area called Antelope Valley. The purpose of this report is to determine the number of commercial and non-commercial broadcast stations in a radio market defined by these commonly owned or controlled Point Broadcasting stations.

Point Broadcasting has attributable interests in KUTY(AM), KOSS(AM), KGKX(FM), KQAV(FM), KKZQ(FM), KMVE(FM) and KCEL(FM). A map was constructed, which is included in this report, which shows the principal community contours of these seven stations. This exhibit shows two radio markets using the commonly owned or controlled Point stations.

Radio Markets

| Radio Market | AM Stations | FM Stations |
|--------------|-------------|------------------|
| Market 1 | KUTY, KOSS | KGMX, KQAV |
| Market 2 | | KQAV, KKZQ, KCEL |

In accordance with §73.3555, a radio market is defined as that area encompassed by the principal community contours of the mutually overlapping stations with common ownership or control. In accordance with the above, it is believed that the principal community contours show a total of two radio markets.

| Radio Market | Number of Stations in Market |
|--------------|------------------------------|
| Market 1 | 29 |
| Market 2 | 16 |

Determinations of distances to contours and contour overlaps were done in accordance with §73.183 and §73.313 of the Commission's rules.

§73.3555 a(1)(ii) Indicates that in a radio market with between 30 and 44 (inclusive) commercial and non-commercial radio stations, a party may own, operate, or control up to 7 commercial radio stations, not more than 4 of which are in the same service (AM or FM). A(1)(iii) Indicates that in a radio market with between 15 and 29 (inclusive) commercial and non-commercial radio stations, a party may own, operate, or control up to 6 commercial radio stations, not more than 4 commercial stations

in the same service (AM or FM). In each market, the commonly owned or controlled stations were not included in the station count if they were not part of the market composite contour. In Market #1, there are twenty-nine stations and common ownership consists of two AM and two FM.. In Market #2, there are sixteen stations and common ownership consists of three FM. This study shows that conditions of C.F.R. §73.3555 on multiple ownership are met.

A tabulation of the radio market stations is included in this report.

ENGINEERING CERTIFICATION

JOEL T. SAXBERG deposes and says:

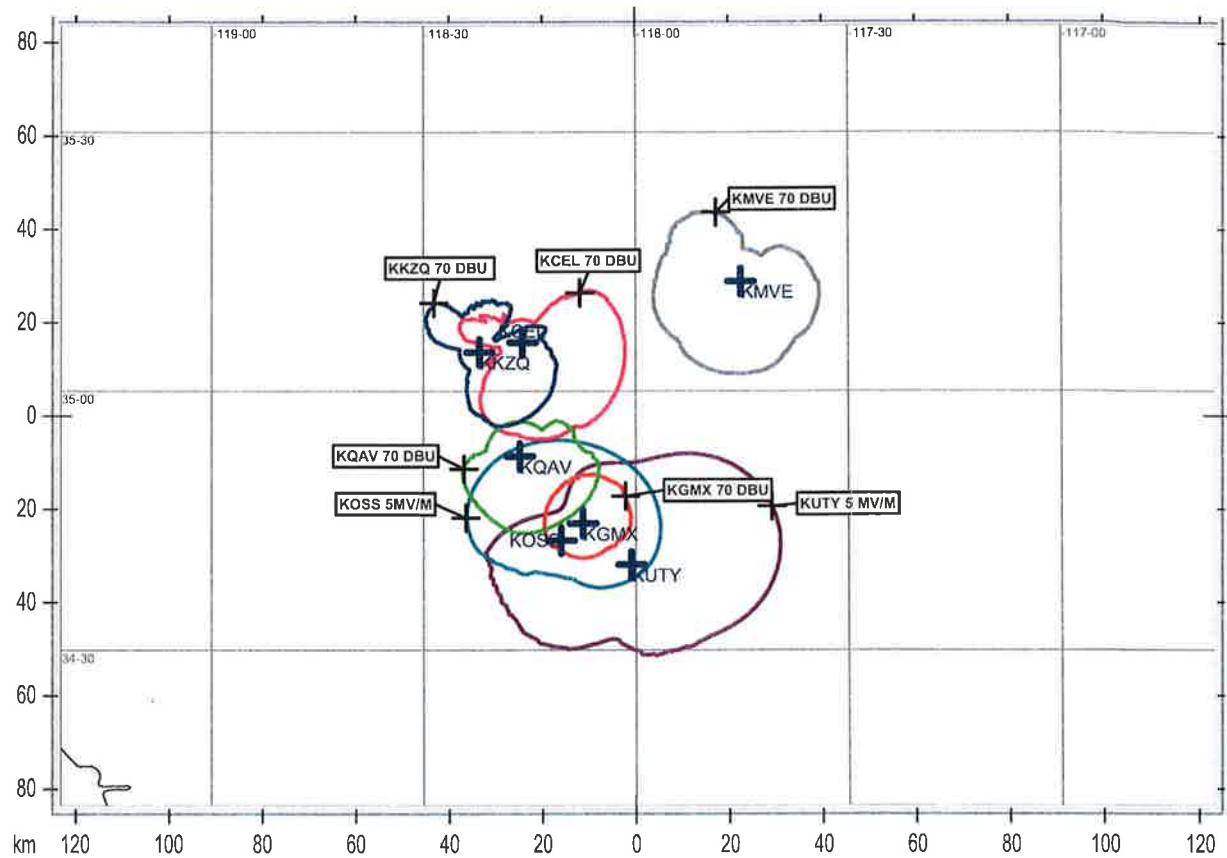

1. That he is President of Broadcast Engineering and Equipment Maintenance Company, "BEEM CO.", radio engineering consultants. BEEM CO. maintains offices at: 2322 S. Second Avenue, Arcadia, CA 91006. Telephone (626) 446-3468
2. That he was graduated from California State University at Los Angeles, February 1966, with a Bachelor of Science degree in Electronic Engineering. He received a MS degree in Electronic Engineering Technology in August 1996.
3. That he has submitted many applications to the Federal Communications Commission for broadcast and auxiliary broadcast construction permits and licenses.
4. That his experience in broadcast engineering is a matter of record and he has spent over forty years working in the field of radio engineering.
5. That the attached report was prepared by him or under his direction and supervision. That he believes the facts stated therein to be both true and accurate. Statements that are based on information supplied by others are also believed to be true and accurate.
6. That he has performed field work on AM and FM broadcast transmitting systems throughout this country and continues to provide technical consulting services on a daily basis to broadcasters.
7. That he declares under penalty of perjury the foregoing is true and correct.
