Re: Sound of Life, Inc.
WGWR(FM), Liberty, New York
Facility Identification Number: 79020
Special Temporary Authority

Dear Counsel:

This is in reference to the request filed January 31, 2012, on behalf of Sound of Life, Inc. ("SLI"). SLI requests further extension of the special temporary authority ("STA") granted on December 4, 2008, to operate Station WGWR with temporary facilities.¹ In support of the request, SLI states that it holds a construction permit to relocate to the STA site and that purchase of a new antenna and lease arrangements have been made; however, completion of the project has been delayed by problems with funding. SLI states that new funding arrangements have been made and that prompt approval is expected.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made substantial progress toward restoring licensed operation.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WGWR may continue to operate with the following facilities:

Geographic coordinates: 41° 48' 16" N, 74° 47' 7" W (NAD 1927)
Channel 201 (88.1 MHz)

¹ WGWR is licensed for operation on Channel 201A (88.1 MHz) with effective radiated power of 0.06 kilowatt (H&V) and antenna height above average terrain of 171 meters.

Effective radiated power: 0.016 kilowatt (H&V)
Antenna height:
 above ground: 79 meters
 above mean sea level: 737 meters
 Above average terrain: 246 meters

SLI must notify the Commission when licensed operation is restored. SLI must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **October 30, 2012**.

Sincerely,

A handwritten signature in blue ink that reads "Charles N. Miller". The signature is cursive and fluid, with the first name "Charles" being the most prominent part.

Charles N. Miller, Engineer
