

EXHIBIT 1

By this amendment, Television Station Group License Subsidiary, LLC revises Section III, Question 6, Exhibit 12 (Other Authorizations) to reflect acquisitions that closed since this application was filed, along with additional information on attributable parties' other media interests.

Television Station Group License Subsidiary, LLC also revises Section III, Question 5(a), Exhibit 10 (Changes in Interests) to correct the information for Television Station Group Holdings, LLC ("Holdings") listed in the table supplied with the application. The ownership of Holdings will not change as a result of the proposed reorganization. Accordingly, the changes in the interests of the attributable and insulated members in Holdings both before and after the proposed mergers and assignments should be "N/A" because no change will occur. In addition, the table incorrectly reported equity interests in Holdings as voting interests. Insulated investors in Holdings do not vote and their consent rights are limited to those specific matters permitted by the Commission's rules and policies for insulated parties.

Control of Holdings remains as set forth in the originally filed application. George D. Lilly and Roy F. Coppedge, III are on the Board of Representatives for Holdings. Television Station Group License Subsidiary, LLC hereby clarifies that Television Station Group Management, LLC controls the Board of Representatives. Mr. Coppedge has the majority of voting control.
