

**Educational Media Foundation**  
5700 West Oaks Boulevard  
Rocklin, CA 95765

*Exhibit 1*  
*Juneau, AK*

### **Purpose of this Application**

Educational Media Foundation ("EMF") submits this application in order to correct a minor discrepancy in its licensed facility KAKI, Juneau, AK (BLED-20110315ACF). The proposed facility's originally applied for Height of Radiation Center Above Ground Level of 30 meters is incorrect and this application corrects that height to 40 meters above ground; the ERP will remain at 1.7kw.

No changes to the antenna system will be made as a result of a grant of this application. Exhibits are included to demonstrate that KAKI meets the requirements for lack of interference to all other radio and TV facilities and the community of license coverage based on this corrected height above ground.

RF Radiation measurements and Spurious Emission measurements were made and submitted as a part of the previous license applications for KAKI and KLSF. No physical changes will be made to the antenna systems for either of these stations as a result of the grant of this application. EMF believes that the special operating conditions in regards to RF Radiation, Spurious Emissions, and the requirements for KINY(AM), Facility ID# 823, Juneau, AK and KXLJ(AM), Facility ID# 161171, Juneau, AK to determine power by the indirect method are not necessary for this corrective filing.
