TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Urban Radio Licenses, LLC ("URL"), licensee of radio station WMXV, Channel 268A, St. Joseph, Tennessee. URL has an outstanding permit to make minor changes in the facilities of WMXV (BPH-20070214ABK). URL herein submits a license application to cover the outstanding permit. A calculation of the transmitter power output of the WMXV transmitter is attached as Exhibit A.

There is one operating condition/restriction on the WMXV permit. The condition states that URL will reduce the power of WMXV, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. URL will comply with this requirement.

Based on the foregoing, it is believed that WMXV is operating in compliance with the Commission's rules and that all conditions have been met.
