Special Temporary Authority  
BSTA-20141202ABJ

Dear Licensee:

This is in reference to the request filed December 2, 2014, on behalf of Educational Media Foundation ("EMF"). EMF recently discovered discrepancies with the elevations specified on the station license, and will soon be filing a construction permit application to make corrections to the parameters specified in this STA request.<sup>1</sup> EMF requests special temporary authority ("STA") to maintain operations while that application is filed and processed by the staff.

The request for STA IS HEREBY GRANTED, to maintain K209CJ's operations with the parameters requested in the STA filing. EMF must use whatever means are necessary to protect workers and the public from radiofrequency exposure in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **June 14, 2015**.

Sincerely,

Dale Bickel  
Senior Engineer  
Audio Division  
Media Bureau

<sup>1</sup> K209CJ also holds construction permit BPFT-20130328AHB. It is not clear whether the corrective application referenced above would be a modification of this construction permit, or a separate application to correct the licensed parameters while leaving the construction permit untouched.
