

### **Environmental Protection**

Educational Media Foundation's ("EMF") proposed facility has been constructed and operating on an existing unregistered tower. This application is merely to change the channel due to displacement. No physical changes to the facility are being proposed.

As per the granted license BMLFT-20070502AFD, EMF is operating K214CY in accordance to the operating conditions or restrictions listed on the license grant.

As taken from the license grant:

Special operating conditions or restrictions:

1 The permittee/licensee in coordination with other users of the site must reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.

Accordingly, EMF respectfully requests that the Commission grant the instant Construction Permit as granted on the current license.

EMF will continue to work with the site owners and other site users to reduce power or cease broadcasting as necessary to protect workers and others having access to the site from excessive levels of RF Radiation.
