Re: KPSV-FM (FM), Tulare, CA  
South Valley Peace Center  
Facility Identification Number: 174791  
Special Temporary Authority  
BSTA-20190613AAR

Dear Licensee:

This is in reference to the request filed June 13, 2019, on behalf of South Valley Peace Center. The STA request reports that the temporary operation sought, from a short, temporary structure “at unpopulated portion of property [sic]“, is needed “due to expiration of [a five year] sublease at [the] original location.”

We find that at (the corrected value of ) 0.310 kW ERP, the 60 dBu service contour of the STA operation would extend past the presently licensed 60 dBu service contour (license BLH-20130911AAB) toward the northeast. This fails our STA processing criterion that requires the STA service contour to remain within that of the licensed operation.<sup>1</sup> As filed, this STA request is not grantable and is subject to dismissal.

However, we have determined that operation at 0.130 kW (130 watts) with the proposed STA facilities is acceptable in this instance. **Therefore, Special Temporary Authority IS GRANTED for operation on Channel 220 with the effective radiated power limited to 0.130 kW (130 watts).** KPSV-FM may not be operated with an ERP in excess of 0.130 kW (130 watts) under this STA.

---

<sup>1</sup> For FM translators, the licensed 60 dBu contour. Changed service areas from construction permits or pending applications are not considered in this analysis. An STA can be authorized to maintain existing, licensed 60 dBu coverage; an STA is not acceptable as a means to expand the licensed service area.

**This Special Temporary Authority expires December 14, 2019.**

This STA does not imply any judgment on the merits or possible outcome of construction permit application BPED-20190102AIY.

Sincerely,

A handwritten signature in black ink that reads "Dale Bickel". The signature is written in a cursive style with a large, looped "D" and "B".
