

International Borders, Title 47, Part 73.207 (2). United States with Canada Border

The proposed NCE, Class A stations for Beaver Springs Faith Baptist Church, Inc., all meet the required distance separation per FCC rules Part 73.207, Paragraph 2, table B. Taking the worst case of Class A Station in the USA to a Class C Station in Canada, the distance of separation must be 242 km for co-channel. Measuring the distances of these three stations to the New York Border of lake Erie (see map), all of the NCE FM, Class A stations are a greater distance away than the minimum separation of 242km. Therefore, these stations meet the distance separation agreement with Canada.

Frequency	Channel	Distance from New York (USA), Canada Border
88.7	204	250km
90.5	213	262km
90.1	211	281km
