Re: KGAB(AM), Orchard Valley, WY  
Facility Identification Number: 30224  
Townsquare Media Cheyenne License, LLC  
License application: BMML-20101015ACO

Dear Counsel:

In our initial review of the license application, we note that the engineering statement refers to a fourth tower on the site which was not included in the moment method modeling. In addition, photographs of the site from Google Earth<sup>tm</sup> show three other towers at the site. The moment method model must include all towers at the site, to verify that any unused towers do not affect either the individual tower impedances or the current distributions for the towers which are active elements in the directional array. Please clarify how many other towers are located at this site, and include all unused towers in the moment method model. If any of the other towers are floated or detuned, the model must reflect such treatment.

Further action on the subject license application will be withheld until the applicant submits an amendment addressing the issues described above. Failure to respond within 60 days from the date of this letter may result in dismissal of the application pursuant to 47 CFR Section 73.3568(a)(1).

Sincerely,

  
Ann Gallagher
