

**WGPT Channel 36
Oakland, MD
RF Exposure Statement**

The facility proposed in this application is for modification of an outstanding construction permit. The proposed modification is for a reduction in effective radiated power from 252 kW to 100 kW. An RF exposure study indicates that the levels on the ground in the vicinity of the tower will be below the acceptable limits and less than currently authorized. All other current safeguards related to the site with regard to both workers and the general public will remain in place.
