During the week of January 24-28, 2011, I supervised the installation of a new Shively 6810, one bay, directional, antenna, for WGNV-FM, 98.9 MHz, Rosendale, New York.

I certify that this antenna was installed according to the manufacturer's drawings and instructions.

I have been engaged in the maintenance and installation of broadcast facilities for more than 35 years, including directional FM antennas, and my qualifications are a matter of record before the FCC.

A handwritten signature in blue ink, appearing to read "William Weeks", is placed over a light blue rectangular background.
