POTEAU, OKLAHOMA
May 2009**

EXHIBIT A

Pre-Existing Shortspaces

This application seeks to correct the coordinates of the transmitter site of KOMS, Channel 297C, Poteau, Oklahoma. At the licensed KOMS site, Channel 297C does not meet §73.207 spacing requirements to two other stations: KTHS-FM, Channel 296C3, Berryville, Arkansas and KEZA, Channel 300C, Fayetteville, Arkansas, as noted on Exhibit A1.

As noted on Exhibit A2, the correction of coordinates will improve the distance between KOMS and KTHZ-FM by 0.1 kilometer, as the correction moves KOMS, on paper, farther from KTHZ-FM. Since KTHZ-FM is authorized pursuant to §73.215 and protects KOMS as a maximum Class C facility, the correction of coordinates does not impact KTHZ-FM.¹

The pre-existing shortspace between the licensed KOMS and KEZA is not changed as a result of the correction of coordinates for KOMS. As such, it is believed the correction of coordinates for KOMS is in compliance with the Commission's rules.

1) KOMS does **not** invoke §73.215 of the Commission's rules.
