EXHIBIT 21

Notification of Reduced Power Operation and
Request for Special Temporary Authorization
NCE Station WKMA-TV, Madisonville, KY (Facility ID: 34212)

Pursuant to Sections 73.1560(d) and 73.1635 of the FCC's Rules, Kentucky Authority for Educational Television ("KET"), licensee of noncommercial educational digital television Station WKMA-TV, Madisonville, Kentucky, notifies the FCC of the current reduced power operation of the station and respectfully requests Special Temporary Authorization ("STA") to maintain the reduced power status for a period of six (6) months.

Station WKMA-TV began operating at a reduced power of 50% of its authorized levels on March 22, 2011 due to equipment problems resulting from circumstances beyond its control. Specifically, KET has determined that the station facility's transmission line broke loose from the tower, and further inspection has revealed severe damage. KET is now working with vendors to procure the materials needed for permanent repair, and is also making the necessary arrangements for tower climbers to complete the repair work. As a state entity, KET must also complete this process in coordination with state purchasing guidelines.

KET requests STA for the reduced power operation because it believes that the repair process will take more than thirty (30) days, and may in fact require several months. A grant of STA for the current reduced power status will serve the public interest by allowing KET to maintain the station's existing noncommercial educational television operation and programming for viewers in the station's local community until the equipment damage can be fully addressed.

KET is a noncommercial educational licensee and it operates WKMA-TV on a noncommercial educational basis. Moreover, KET qualifies as a governmental entity. The licensee is therefore exempt from FCC filing fee requirements, pursuant to Section 1.1116 of the Commission's Rules, and the facility is exempt from FCC regulatory fees, pursuant to Section 1.1162 of the Rules.
