Dear Applicant:

Prior to September 9, 2013, which is the expiration date of the underlying construction permit BDRTEDT-20100827AAT; file an amendment to resolve the deficiency that was discovered during the initial review of your application. Amendments must be filed electronically. Failure to amend your application will result in the dismissal of the above referenced modification application.

Specifically, the structure requires re-registration due to a proposed tower height increase of 1.5 meters. The proposal indicates the overall tower height above ground level is 140.2 meters and the ASR registration search results of ASRN number 1288320 shows the following tower specifications:
