Re: WYGG (FM), Asbury Park, New Jersey
Facility Identification Number: 19867
Minority Business & Housing Development, Inc.
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed March 20, 2008, on behalf of Minority Business & Housing Development, Inc. ("MBHD"). MBHD requests further extension of the special temporary authority ("STA") granted on January 4, 2007, to operate Station WYGG from a site other than the licensed site.¹ In support of the request, MBHD states that implementation of its Construction Permit BPED-20070403ABV for new, permanent facilities has been delayed by unexpected zoning opposition.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that no progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and that the licensee has taken all possible steps to

¹ WYGG is licensed for operation on Channel 201A (88.1 MHz) with effective radiated power ("ERP") of 0.1 kW (H&V) and antenna height above average terrain ("HAAT") of 10 meters. Construction Permit BPED-20070403ABV authorizes relocation of the transmitter and operation with ERP of 0.001 kW (H), 1.5 kW (V), (Max-DA), and HAAT of 16 meters.

expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WYGG may continue to operate with the following facilities:

Geographic coordinates:	40° 13' 09" N, 74° 00' 27" W (NAD 1927)
Channel	201 (88.1 MHz)
Effective radiated power:	Not to exceed 0.08 kilowatt (H&V)
Antenna height:	
above ground:	14 meters
above mean sea level:	16 meters
above average terrain:	6 meters

MBHD must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **April 17, 2009**.

Sincerely,

Charles N. Miller, Engineer
