

APPLICATION FOR STATION LICENSE
KANZA, INC.
KRLI RADIO STATION
CH 280C2 - 103.9 MHZ - 12.0 KW
MALTA BEND, MISSOURI
February 2006

TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of KANZA, Inc. ("KANZA"), licensee of radio station KRLI, Channel 280C3, Malta Bend, Missouri. KANZA also hold a permit to upgrade KRLI to Channel 280C2 (BPH-20021104AEG). This instant application seeks a license to cover the outstanding permit. Attached, as Exhibit A, is a calculation of the transmitter power output for the KRLI system.

There are three special operating conditions or restrictions noted on the permit. The first condition notes that KANZA will reduce power of the facility in coordination with other users of the site, to allow tower access. KANZA herein restates that it will, in cooperation with other tower users, reduce the power of KRLI or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines.

The second condition notes that the KRLI permit was issued pursuant to §73.215 of the rules. KANZA acknowledges this condition. The last condition notes that the Table of FM Allotments was amended from Channel 280C3 to Channel 280C2 at Malta Bend, Missouri. KANZA acknowledges this change. Based on the foregoing, it is believed that all of the conditions on the KRLI permit have been met.
