

ENGINEERING STATEMENT

Kevin O'Kane

February, 2014

Kevin O'Kane is the licensee of WWDG-CA, Rome, NY. The station has an application (BDCCTTL-20130903ABV) pending for a digital companion channel on channel 50, at Bridgeport, NY. It is hereby requested to withdraw that application and submit the application herein for channel 28 as the digital companion channel for WWDG-CA.

Attachment 1 is a map showing the location and contour overlap of the licensed protected contour and the proposed protected contour of the companion digital station which is proposed to located approximately 25 km from the licensed site.

Attachment 2 are the summary results of a Longley-Rice interference study performed using the FCC's 'TV Process' program on a Sun Sparc system which shows that no interference would be caused from the proposal herein. It is noted that an application with file number BDISDTL-20120229AAH was removed from the study as that application has long since been dismissed.
