Re: WOCL(FM), Deland, Florida
Entercom License, LLC.
Facility ID No. 10138
File No. 2020918AAR

**Request for Extension of Experimental
Authority**

Dear Counsel:

The staff has under consideration the above-referenced September 18, 2020, request for extension of experimental authority¹ submitted on behalf of Entercom License, LLC. ("Entercom"), licensee of commercial FM station WOCL(FM), Deland, Florida,² to permit WOCL to continue to conduct testing of hybrid digital FM in-band on-channel (IBOC) operation with asymmetric power levels in the digital sidebands. The extension of experimental authority is requested pursuant to Section 5.203 of the Commission's Rules.³

The request states that Entercom is seeking continued experimental authority to operate WOCL with lower sideband (LSB) digital effective radiated power (ERP) of -14 dBc⁴ (2 kW) and upper sideband (USB) digital ERP of -10 dBc (5 kW).⁵ Entercom states that it has noticed a substantial improvement of the Station's signal both at the outer fringe of the service area, as well as indoor receptions since commencing digital operation pursuant to the Experimental Authority. Entercom indicates that there have been no complaints of interference from any party.

¹ File No. 20170905ABE (granted 9/25/2017), as extended by File No. 20181011ABK and 20191112ABN

² File Number BMLH-20170905AAQ

³ 47 CFR § 5.203 (Section 5.203).

⁴ Decibels relative to analog carrier.

⁵ Analog ERP is 100 kilowatts ("kW"), H&V.

Entercom's request for extension of experimental authority for WOCL(FM) meets the requirements for experimental operations set forth in Section 5.203. Accordingly, the extension request is **HEREBY GRANTED**. This experimental authority expires on **September 25, 2021**. This authority is specifically conditioned on the lack of objectionable interference. A report detailing the methodology employed and the results obtained must be submitted within 90 days following the conclusion of the experimental operation. Any request for further extension of this experimental authority should be filed at least 30 days prior to the expiration date of the authority. Additionally, an extension request must include an interim report detailing the progress of the experimental operation as of the filing date of the request.

Sincerely,

Rodolfo F. Bonacci
