

MANSFIELD ASHLAND WOOSTER  
**90.7 / 91.1 / 102.7**

500 Logan Road • Mansfield, Ohio 44907

October 18, 2013

Engineering Certification for Directional Antenna at WVMC Radio at Mansfield, Ohio, BMPED-20120803ABB.

I have supervised the installation of the directional PSI Antenna, model PSIFML-4A-.75WS-DA per manufacturer's instructions. I have reviewed its correct orientation with a qualified and licensed surveyor, and rigging crew experienced in alignment of directional broadcast and communications antennas.

I have served as WVMC's broadcast engineer for 9 years, and was the project manager for the installation of our Wooster Ohio translator, and antenna upgrade of our Ashland Ohio translator.

Michael Thompson

Station Engineer, WVMC
