

Compliance with Mexican Agreement

The proposed facility is located approximately 200.5 kilometers from the Mexican border, and there are no Mexican stations of any class on co-channel, first, second, third, or IF-related frequencies within 320 kilometers of the proposed facility.

Therefore, the proposed facility fully complies with the requirements of 47 C.F.R. 73.207(b)(3) of the Commission's Rules.
