Re: Polnet Communications, Ltd. (Polnet)  
WRKL(AM), New City, NY  
Facility Identification Number: 50057  
Special Temporary Authority (STA)  
BESTA-20220829AAC

Dear Mr. Kotaba:

This is in reference to the request filed on August 29, 2022. Polnet requests a further extension of the STA granted on March 13, 2017, to continue ND operation to allow time to file the required FCC Form 301 application.<sup>1</sup> In support of the request, Polnet has requested additional time to file the application to propose a new permanent modified facility (due to the collapse of one tower back in 2017 that was never rebuilt).

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA is **HEREBY GRANTED**, and Polnet may continue to operate ND using tower #4 of the nighttime array with a maximum of 0.2 kW day and night. Polnet must reduce power or cease operations to resolve any interference complaints, and use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

---

<sup>1</sup> WRKL(AM) is licensed DA for operation on 910 kHz with 1 kW day and 0.8 kW night, using different patterns.

This authority expires on **March 1, 2023.**

Sincerely,

A handwritten signature in blue ink, appearing to read "Joe Szczesny". The signature is fluid and cursive, with a large loop at the beginning and a long, sweeping tail.
