TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Oklahoma Community Television, LLC ("OCT"), permittee of digital low power/companion television translator K40JP-D, Channel 40, Sayre, Oklahoma. OCT holds an outstanding permit for K40JP-D (BMPD TT-20091221ACW), authorizing a change in antenna and a reduction in power. This instant application seeks a license to cover the outstanding permit for K40JP-D. Attached as Exhibit A is a calculation of the transmitter output power for the K40JP-D transmitter.¹

There are no special operating conditions or restrictions on the K40JP-D construction permit. However, OCT will, in cooperation with other tower users, reduce the power of K40JP-D or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines. Based on the foregoing, it is believed K40JP-D is operating pursuant to the Commission's rules.

1) Upon recalculation the transmitter power output was determined to be 0.1195 kilowatt (119.5 watts) rather than the 0.123 kilowatt (123 watts) indicated on the permit.
