

**APPLICATION FOR STATION LICENSE**  
**MARCOS RODRIGUEZ**  
**K266AK FM TRANSLATOR**  
**CH 266D - 101.1 MHZ - 0.01 KW**  
**ASPEN, COLORADO**  
**October 2005**

**TECHNICAL STATEMENT**

This Technical Statement was prepared on behalf of Marcos Rodriguez ("Rodriguez"), permittee of FM translator station K266AK, Channel 266D, Aspen, Colorado. This instant application seeks a license to cover the outstanding permit (BMPFT-20050927AMM). Attached, as Exhibit A, is a calculation of the transmitter power output power for the K266AK translator.

There are two special operating conditions/restrictions listed on the K266AK permit. The first condition requires Rodriguez to reduce the power of K266AK, or cease operation, to insure persons with access to the site are not exposed to radio frequency radiation levels above the limits. Rodriguez herein restates that it will, in cooperation with other tower users, reduce the power of K266AK or cease operation, as necessary, to insure that persons having access to the tower will not be exposed to radio frequency electromagnetic fields in excess of the FCC's guidelines.

The second condition states that an application for station license must be on file before commencing program test with the facilities authorized in the permit. This instant application for license will be on file before program test are commenced. Based on the foregoing, it is believed that all conditions on the K266AK permit have been satisfied.
