

# **Explanation of Special Conditions/Restrictions**

W295CT – Lapeer, MI

Facility ID: 201347

Permit File Number: BNPFT-20171201ADV

1. The applicant certifies coordination with other users of the site to reduce power or cease operation as necessary to protect persons having access to the site, tower or antenna from radiofrequency electromagnetic fields in excess of FCC guidelines.
2. Prior to commencing program test operations, the FM Translator applicant certifies it has on file at the Commission an FCC Form 350 Application for an FM Translator License pursuant to 47 C.F.R. Section 74.14.
3. The applicant acknowledges this construction permit authorizes the mounting of the antenna on the non-directional tower of AM station WMPC(AM), Lapeer, MI 1230 kHz. During the installation of the antenna, the AM station has determined operating power by the indirect method (see Section 73.51 of the Commission's Rules). In addition, upon completion of the antenna installation, antenna impedance measurements on the AM antenna have been made. As the resistance of the AM antenna has changed by more than two percent from the licensed value (see Section 73.45(c)(1) of the Commission's Rules), an application for the AM station to return to direct power measurement, including a tower sketch of the installation, has been filed with the Commission by the AM station licensee using form FCC 302-AM. (See Section 1.30003 of the Commission's Rules.) The permittee has submitted confirmation of completion of the requirements of this condition in the application for license to cover this construction permit. (See attached Copy of Form 302-AM Engineering Section)
4. The applicant acknowledges that pursuant Rule Making, 28 FCC Rcd 15221, 15227, para. 14 (2013), and First Report and Order, 30 FCC Rcd 12145, 12154, para. 17 and n. 43 (2015), the permittee and any successor in interest (licensee, transferee, or assignee) shall be subject to the following restrictions: (1) this facility may only, in perpetuity, be used to rebroadcast the authorized facilities of the AM primary station set forth in this construction permit, except that it may also originate nighttime programming if the AM primary station set forth in this construction permit is not authorized regular nighttime service, and then only during periods of the broadcast day when the primary AM station is not regularly authorized to operate; (2) if the AM primary station is operating with reduced facilities, this cross-service FM translator facility may only operate if its coverage contour conforms to the limits set forth in 47 CFR Section 74.1201(g) as applied to the reduced facilities of the AM primary station; (3) the authorization for this facility may not be assigned or transferred except in conjunction with the primary AM station set forth in this construction permit; and (4) if the authorization of the AM primary station set forth in this construction permit is rescinded, revoked, surrendered, subject to special temporary authorization (STA) to remain silent, or is otherwise suspended from operation, the authorization of this cross-service FM translator station shall likewise be rescinded, revoked, surrendered, silent for the duration of the AM primary station's STA to remain silent, or suspended from operation. Minor modifications of this authorization are permitted, provided that the translator meets all of the preceding conditions.
