Re: The Mountain Broadcasting LLC (TMB)
KOHI(AM), St. Helens, OR
Facility Identification Number: 70467
Special Temporary Authority (STA)
BESTA-20210713AAH

Dear Mr. Rowe:

This is in reference to the request filed on July 13, 2021. TMB requests a further extension of the STA granted on July 2, 2020, to continue operating from an alternate site with a long wire antenna to allow time to file the required FCC Form 301 application.¹ In support of the request, TMB stated that additional time is needed to file the application to propose a new permanent ND antenna system at the site coordinates shown below.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of the STA IS HEREBY GRANTED, and TMB may continue to operate with the following facilities:

¹ KOHI(AM) is licensed for ND operation on 1600 kHz with 1 kW (day) and 0.01 kW (night).

Geographic coordinates
Frequency
Hours of operation
Operating power
Antenna type

45° 51' 59" N, 122° 49' 02" W (NAD 1927)
1600 kHz
day and night
0.05 kW (day), 0.005 kW (night)
120 foot long-wire antenna

TMB must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **January 29, 2022.**

Sincerely,

A handwritten signature in blue ink that reads "Joe Szczesny". The signature is fluid and cursive, with the first name "Joe" and last name "Szczesny" clearly legible.
