Re: Proposed 500-foot Guyed Lattice Tower
Planer Road
Effingham, Florence County, South Carolina
Barinowski Investment Co. Evergreen Site
ECA Project No. F-888-3

Dear Ms. Kyte:

Thank you for a completed FCC Form 620 for the above-referenced project, which we received on October 13. We appreciate your work in identifying historic properties for this undertaking.

Based on the FCC-standardized 1.5-mile Area of Potential Effect (APE) for the visual effects of a 500-foot communications tower, our office concurs that no properties included in or eligible for inclusion in the National Register of Historic Places will be visually affected by this project. Based on the FCC-standardized APE for the direct effects of a communications tower, which is the footprint of the tower construction, we concur that no historic properties will be directly affected by this project.

These comments by the State Historic Preservation Office are required by the Federal Communications Commission's 2005 Nationwide Agreement For Review of Effects on Historic Properties for Certain Undertakings. If you have questions, please contact me at (803) 896-6169 or dobrasko@scdah.state.sc.us.

Sincerely,

Rebekah Dobrasko
