**Re: KMBZ(AM), Kansas City, MO (Facility ID No. 6382)
License Modification**

Dear Ms. Dortch:

Entercom License, LLC ("Entercom"), licensee of KMBZ(AM), Kansas City, MO (Facility ID No. 6382) (the "Station"), hereby requests modification of the station's current license, FCC File No. BMML-20171214ABX (the "License") as described in this letter.

Specifically, Entercom requests that the License be modified to specify a day common point resistance of 52 ohms and daytime common point current of 13.16 amps. The requested modification would permit Entercom to determine the Station's daytime non-directional operating power at the common point ammeter, rather than the non-directional tower base meter identified on the current license. The option of determining power by the transmitter power output meter should be retained.

In accordance with the instructions set forth in *Audio Division Announces Procedures Related to Coronavirus*, Public Notice, DA 20-266 (rel. Mar. 13, 2020), Entercom is submitting this request via email.

Please contact me if there are any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Laura Berman", with a long horizontal flourish extending to the right.

Laura Berman
