

EXHIBIT 4-5-6-7 IN SUPPORT OF LPFM APPLICATION FOR
ELK CREEK LUTHERAN CHURCH

No members of the Church board have interest in any broadcast facilities or other LPFM stations. As an established Church, none of the board members have any financial interests in the Church itself. Of the church congregation, which numbers approximately 100 people, only one person is actively involved in the broadcast industry. That person, Ronald Schacht, is employed as the regional engineer for several local radio stations owned by Three Eagles Communications. Mr. Schacht who has over 40 years experience in radio broadcast has prepared much of this application, constructed the internet radio station and would oversee the operation of the FM station if it were granted. He is thoroughly knowledgeable in FCC rules concerning the operation of an LPFM station. He has no financial interest in any broadcast facility.
