Proximity to AM Array Discussion
CBS Radio East Inc.
December 15, 2010

The site of the proposed auxiliary antenna is located within 3.2 km of the AM array utilized by stations WXKS, WRCA, and WUNR.

The proposed auxiliary antenna will be mounted on an existing tower that is **not** base insulated or detuned at the Am frequencies of the nearby AM facilities. No adverse effects are anticipated by the addition of the proposed auxiliary antenna on the existing tower.
