Mr. Hashemzadeh,

KENW Eastern New Mexico University has received a grant from the Public Television Station Digital Transition Grant Program to construct two translators to provide educational, instructional, and entertainment public television programming to members of the Mescalero Apache Nation in and around Mescalero, New Mexico.

The proposed translators will be re-broadcasting our regular program streams available to the general public throughout our coverage areas. The programming will include local content produced at our studios on the campus of Eastern New Mexico University, as well as programming provided by the Public Broadcasting System (PBS) network. KENW will also be adding a virtual channel dedicated to Indian and Tribal Affairs.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Jeff P. Burmeister', is written over the typed name.

Jeffrey P. Burmeister  
KENW Director of Engineering
