Re: Entercom Greenville License, LLC (EGL)
WYRD(AM), Greenville, South Carolina
Facility Identification Number: 34389
Special Temporary Authority (STA)
BESTA- 20140717ABW

Dear Ms. Ward:

This is in reference to the request filed on July 17, 2014. EGL requests a seventh extension of the STA granted on June 17, 2011, to operate Station WYRD with parameters at variance and/or reduced power while maintaining monitor points within licensed limits due to copper theft.¹ In support of the request, EGL states that licensee plans to file an FCC Form 302 application shortly and requests an additional 90 days.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station WYRD may continue to operate with parameters at variance and/or reduced power while maintaining

¹ WYRD is licensed for operation on 1330 kHz with 5 kW ND day and 5 kW DA night.

monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. EGL must notify the Commission when licensed operation is restored.² EGL must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commissions exposure guidelines. See 47 CFR § 1.1310.

This authority expires on **November 12, 2014**.

Sincerely,

A handwritten signature in blue ink, appearing to read 'J. Szczesny', with a large loop at the end.

Joseph Szczesny, Engineer
Audio Division
