

Exhibit 38
Legal STA
K300AD

Regent Licensee of Chico, Inc. (“Regent”), licensee of FM translator station K300AD (ID #66227), Chico, CA, failed to file an application for renewal of the station’s license on August 1, 2005, the date by which such application was due. As a result, the station’s license expired on December 1, 2005, without a renewal application being pending.

Regent filed for its main station, but renewal for the FM translator was inadvertently omitted from the form. Upon becoming aware that the renewal application had not been filed, Regent promptly took steps to prepare and file a renewal application of the K300AD license. A renewal application for the station’s license is being filed simultaneously with this application.

Regent has continued to operate the station since the expiration of its license on December 1, 2005. Regent hereby respectfully requests that the Commission grant special temporary authority to continue to operate the station pending the processing of the license renewal application.
