Re: Antenna Rotation, Talisheek, Louisiana Tower

Dear John,

I certify that on June 12, 2013, a survey crew was sent out to verify the rotation of the antenna being installed on the Telecommunications Tower owned by Crown Castle in Section 11, Township 6 South, Range 13 East, Talisheek, St. Tammany Parish, Louisiana. The antenna aimed at an azimuth of 140 degrees was found to be correct.

The referenced azimuth of 140 degrees is based upon GPS observations and refer to the Louisiana State Plane Coordinate System (Louisiana South – 1702).

Please feel free to contact me if you need anything further.

Respectfully,  
  
SEAN M. BURKES
