

Meredith Corporation - 14975 NW Greenbrier Parkway - Beaverton, OR 97006

22 July 2011

Mr. Everett E Helm  
President  
Rural Oregon Wireless Television  
7140 SW Macadam Ave.  
Portland, OR 97219

Dear Everett:

On behalf of KPTV-KPDX and Meredith Corporation (Meredith), licensee of K51EH channel 51 and holder of a companion DTV channel Construction Permit for K51EH-LD on channel 51, issued to The Dalles, Oregon, I have reviewed the technical proposal by Rural Oregon Wireless Television (ROWT) for a digital flash cut application for their translator K50CE in Hood River, Oregon. While ROWT's proposed station is predicted to cause interference to K51EH-LD, we are satisfied that any predicted interference will be minimal due to terrain sheilding and that it falls within the coverage of other KPTV transmitters.

Therefore, Meredith consents to the grant of ROWT's application to modify K50CE for a digital flash cut on channel 50.

Yours,

Edward E. Williams, CPBE  
Director of Engineering
