July 11, 2001

Dear FCC,

This attachment to the amended application for a new TV translator channel describes additional attachments in pdf format.

Prefix	ARN	GN	Fac Id	Applicant
BNPTT	20000801ACA	M193	125090	Caribou County TV Association

Attached please find requested Profile Charts and population-based Interference Studies. These charts and studies demonstrate why this requested new channel will not cause any interference to competing applicants (in geographic proximity) to the new channel.

From your FCC MX list the following applicants were researched for possible interference. The profile charts were generated from a software package obtained from Softwright, LLC and the population-based interference studies were obtained from the consulting firm Doug Vernier Telecom Consultants.

From the FCC MX list:

Prefix	ARN	GN	Fac Id	Competing Applicant
BNPTTL	20000807AFH	M193	125330	Julie Mintz
BNPTTL	20000828AIN	M193	126510	Dean M. Mosely
BNPTTL	20000831BJS	M193	128842	D/B/A Turner Enterprises
BNPTTL	20000828AVS	M193	127920	Charles C. Townsend, III
BNPTTL	20000807AET	M193	125299	Sean Mintz

For each of the applicants listed above, we submit three profile charts each and one population-based interference study each. Your engineer, Mr. Bob Singleton, requested three profile charts with one "facility to facility" and then two more "plus and minus" 20 degrees azimuth.

Attachments in .pdf format as follows:

Exhibit	Type		Research Results	Facility	vs	Facility
CH51_1	Profile	Chart	Terrain Shielded	125090		125330
CH51_1A	Profile	Chart -20	Terrain Shielded	125090		125330
CH51_1B	Profile	Chart +20	Terrain Shielded	125090		125330
CH51_2	Profile	Chart	Terrain Shielded	125090		126510
CH51_2A	Profile	Chart -20	Terrain Shielded	125090		126510
CH51_2B	Profile	Chart +20	Terrain Shielded	125090		126510
CH51_3	Profile	Chart	Terrain Shielded	125090		128842
CH51_3A	Profile	Chart -20	Terrain Shielded	125090		128842
CH51_3B	Profile	Chart +20	Terrain Shielded	125090		128842
CH51_4	Profile	Chart	Terrain Shielded	125090		127920
CH51_4A	Profile	Chart -20	Terrain Shielded	125090		127920
CH51_4B	Profile	Chart +20	Terrain Shielded	125090		127920

Exhibits continued from Caribou County TV Association:

Exhibit	Type	Research Results	Facility	vs	Facility
CH51_5	Profile Chart	Terrain Shielded	125090		125299
CH51_5A	Profile Chart -20	Terrain Shielded	125090		125299
CH51_5B	Profile Chart +20	Terrain Shielded	125090		125299

Exhibit	Type	Research Results	Facility	vs	Facility
JM51N	Interference StdY	NO Interference	125090		125330
DMM51-	Interference StdY	NO Interference	125090		126510
Turner51+	Interference StdY	NO Interference	125090		128842
CCTIII51-	Interference StdY	NO Interference	125090		127920
SM51N	Interference StdY	NO Interference	125090		125299

From the above evidence, there appears to us to be no technical reason why the requested new channel 51 uhf cannot be awarded to Caribou County TV Association.

Please contact us for any additional information.
