Construction Permit for New Analog Television Station  
Channel 46, Bay City, Michigan  
Facility I.D. No. 82627

Barrington Michigan Corporation, the proposed assignee of the outstanding construction permit from the Commission to build and operate a new primary analog UHF commercial television broadcasting station on NTSC Channel 46 in Bay City, Michigan (no call sign yet assigned; 960710KZ; Facility Identification No. 82627) in the above-referenced application, hereby respectfully amends Exhibit 11 to that application in the following two respects, in response to an informal request to Barrington Michigan Corporation's counsel from the Commission's staff in the Video Division of the Media Bureau:

1. Barrington Michigan Corporation hereby certifies to the Commission that apart from the three limited partners in Pilot Group, L.P. for whom a request for exemption from attribution is set forth in Exhibit 12 to this application (Martin L. Edelman, Marshall Cohen, and Lerer Investments, LLC) – who do not qualify for insulation from attribution, because they are non-insulated members of Pilot Group GP, LLC, the sole general partner of Pilot Group, L.P., but for whom exemption from attribution is justified, for the reasons set forth in Exhibit 12 – all of the limited partners of Pilot Group, L.P. not identified in Exhibit 11 to the application are insulated from attribution under the Commission's rules and policies providing for such insulation.

2. Barrington Michigan Corporation hereby certifies to the Commission that the percentages of the membership interests in Barrington Broadcasting Company, LLC held by K. James Yager, Christopher Cornelius, Mary Flodin, and Keith Bland, as set forth in Footnote 6 to Exhibit 11 to the application, represent those individuals' ownership percentages and voting percentages in Barrington Broadcasting Company, LLC.
