TECHNICAL STATEMENT

This Technical Statement was prepared on behalf of Central Florida Educational Foundation, Inc. ("CFEF"), licensee of radio station WMYZ, Channel 204C3, Clermont, Florida. CFEF has an outstanding permit authorizing a modification to the existing auxiliary antenna system for WMYZ (BXPED-20070906AEX). CFEF herein submits a license application to cover the outstanding auxiliary permit. A calculation of the transmitter power output of the WMYZ transmitter is attached as Exhibit A.

There is one operating condition/restriction on the WMYZ permit. The condition states that CFEF will reduce the power of the WMYZ auxiliary, or cease operation as needed, to insure that persons with access to the tower will not be exposed to radio frequency radiation levels in excess of the Commission's guidelines. CFEF will comply with this requirement. Based on the foregoing, it is believed that the WMYZ auxiliary system is operating in compliance with the Commission's rules and that all conditions have been met.
