RE: WXGV – Fernandina Beach, Florida
WYGV – St. Augustine Beach, Florida
Tama Broadcasting, Inc.

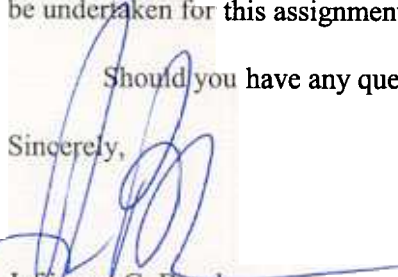

Dear Erwin:

At your request, we have reviewed whether a Radio Multiple Ownership Analysis is necessary to be prepared in conjunction with the proposed assignment of station WYGV, St. Augustine Beach, Florida, and WXGV, Fernandina Beach, Florida, to Tama Broadcasting, Inc., in light of its attributable interests in stations in the northern Florida market. These interests include WHJX, Baldwin, Florida, which also includes an outstanding construction permit, and WOKF, Folkston, Georgia.

You will note on the enclosed map that we have depicted the city grade contours of the above four referenced FM facilities and find that the WXGV city grade contour does not overlap with either WYGV or any of the other facilities in which Tama has an interest. Similarly, WXGV does not overlap with any of the other northern Florida market facilities. As such, no multiple ownership analysis needs to be undertaken for this assignment since there is no overlap of contours with stations in the same service.

Should you have any questions regarding this information, please do not hesitate to contact me.

Sincerely,

Jefferson G. Brock
