In re: W249CC, Dillard, GA  
BPFT-20090212ABI  
Facility ID No. 151910

Dear Applicant:

This letter refers to the above-captioned application for W249CC, Dillard, Georgia.

An engineering study of the application reveals that it is in violation of 47 C.F.R. § 74.1204(a) with respect to W249CB (BLFT-20071107ADA), Six Mile, South Carolina. Section 74.1204(a) states that an application for an FM translator station will not be accepted if the proposed operation would involve prohibited overlap of predicted field strength contours with any other authorized station. Specifically, the proposed interfering contour (40 dBu) would overlap the protected contour (60 dBu) of W249CB. The application failed to discuss this violation.

In light of the above, the application BPFT-20090212ABI filed by Tugart Properties, L.L.C. is unacceptable for filing pursuant to 47 C.F.R. § 73.3566(a) and IS HEREBY DISMISSED. This action is taken pursuant to 47 C.F.R. § 0.283.

Sincerely,

James D. Bradshaw  
Deputy Chief  
Audio Division  
Media Bureau

cc: Douglas M. Sutton, Jr., Engr.

No topographic data is available for this location.

A1 - Number of radials where free space equation was used for field strength calculations.

A7 - Number of radials where a HAAT less than 30 meters was adjusted to 30 meters.
