Re: LPTV Application
Channel 22 Blue Ridge, GA
BNPTTL-20000831CGC
Facility ID 125828

We are requesting a waiver of the 121-kilometer restriction of the markets shown above. Our waiver will show an appropriate number of profiles showing the terrain between the proposed community of license and the applicable TV market cities, indicating the signals of the full-service stations in these cities cannot be directly received in the proposed community.

The profiles will be from the community to full-service stations in the market. They will be done every 5 degrees, with profiles being done 15 degrees either side of the maximum and minimum bearing. Below are the full-service stations licensed to the market showing their distance and bearing.

Call Sign	Channel	RCAMSL m	Distance Km	Bearing To Station
Chattanooga, TN				
WRCB	3	705	93.9	290
WTVG	9	709	94.2	290
WDEF	12	767	93.7	289
WRCB-DT	13	663	93.9	290
WTCI-DT	29	738	92.9	294
WTVG-DT	35	692	94.2	290
WDSI-DT	40	766	92.7	294
WDEF-DT	47	723	93.7	289
WRCB=DT	55	700	93.9	290
WDSI	61	769	92.7	294

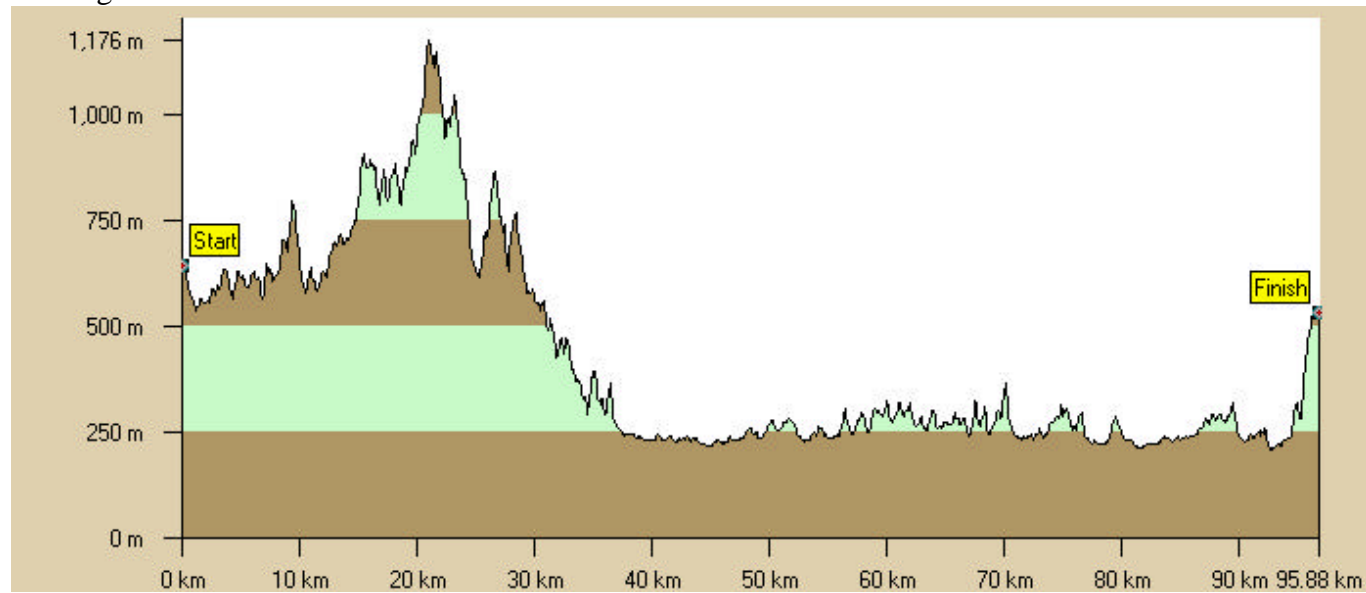

Profiles will be done at 95 Km from 275, 280, 285, 290, 295, 300, 305 and 310 Degrees.

The proposed RCAMSL is 689m, therefore, my signal cannot be directly received in either market nor can the signals of the full-service stations in either market be directly received, therefore, this station is grantable.

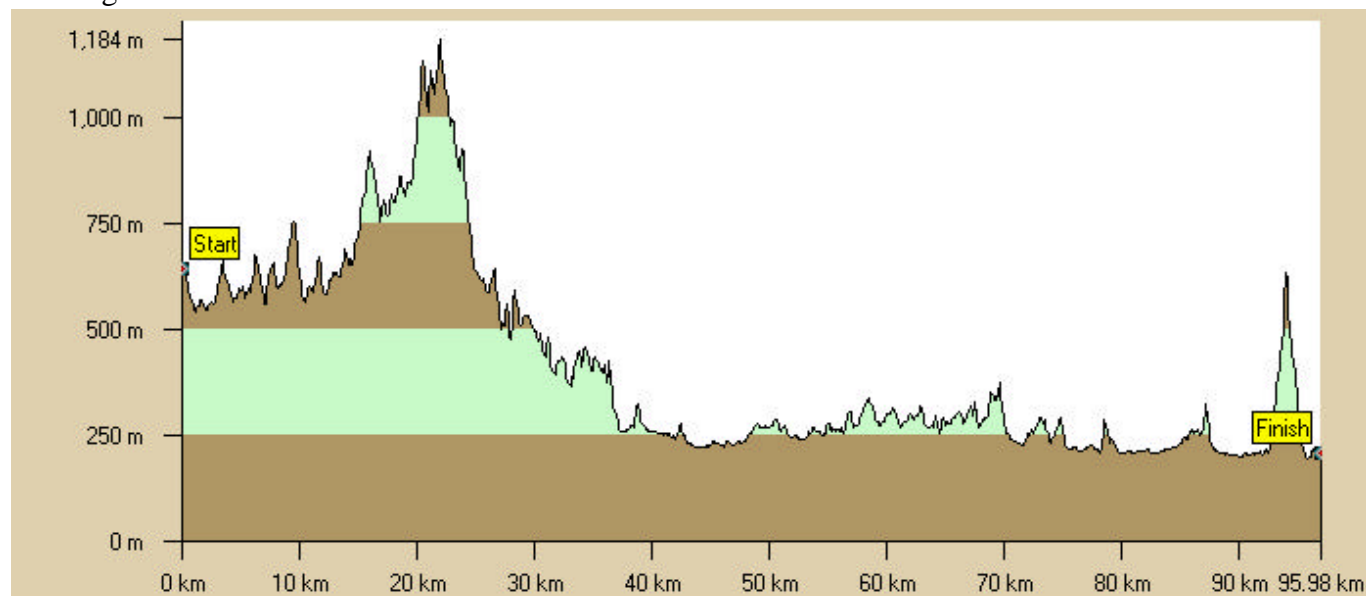

Thank You,

Richard C Goetz
