

RADIO MARKET ANALYSIS
CMP HOUSTON-KC, LLC
KCHZ RADIO STATION
OTTAWA, KANSAS
KMJK RADIO STATION
NORTH KANSAS CITY, MISSOURI
September 2012

TECHNICAL STATEMENT

1. This technical statement and attached exhibits were prepared on behalf of CMP Houston-KC, LLC (“CMP”), proposed assignee of KCHZ, Channel 239C2, Ottawa, Kansas and KMJK, Channel 297C1, North Kansas City, Missouri. CMP is also the licensee of KCMO, 710 kHz, Kansas City, Missouri; KCMO-FM, Channel 235C0, Shawnee, Kansas; KCJK, Channel 286C1, Garden City, Missouri; and KCFX, Channel 266C1, Harrisonville, Missouri. Those parties holding an attributable interest in CMP also hold an attributable interest in KTOP-FM, Channel 275C2, St. Marys, Kansas; KDVV¹, Channel 262C0, KWIC, Channel 257C3, KMAJ, 1440 kHz, and KTOP, 1490 kHz, Topeka, Kansas; KMAJ-FM, Channel 299C1, Carbondale, Kansas, and KDVB², Channel 245A, Effingham, Kansas.

2. KCHZ is not a metro station in the Kansas City, Missouri-Kansas Arbitron Market, (“Kansas City Market”), but is considered “home” to that Market. KMJK, KCMO, KCMO-FM, KCJK and KCFX are each licensed to a community in a metro county in the Kansas City Market. KCHZ is not a metro station in the Topeka, Kansas Arbitron Market nor is it considered “home” to that market, but it does have contour overlap with commonly owned stations in the Topeka market. Therefore, this review will verify compliance of commonly owned stations in both rated and non-rated markets.

-
- 1) KDVV has a construction permit to upgrade to Channel 262C at its existing site (BPH-20100921ACT). As the city grade contour of the permit completely encompasses the licensed KDVV city grade contour, only the KDVV permit is considered herein.
- 2) KDVB has a construction permit to relocate and upgrade to Channel 245C2 (BPH-20080321ACL). Since the city grade contour of the permit completely encompasses the licensed city grade contour, only the KDVB permit will be considered herein.

KANSAS CITY, MISSOURI-KANSAS ARBITRON/BIA MARKET REVIEW

3. As shown on Exhibit #1 there are forty-five AM and FM (commercial and non-commercial) stations in the Kansas City Market (Market #33). Upon consummation of the proposed transaction, Cumulus Media Inc. (“Cumulus”), the ultimate parent of CMP, will control five FM stations and one AM station in the Market. The number of stations depicted falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the Commission’s rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. Therefore, CMP is in compliance in the rated Kansas City Market.

REVISED CONTOUR OVERLAP ANALYSIS

4. Attached as Exhibit #2 is a map depicting the city grade contours of the commonly owned facilities. The KCHZ city grade contour has an area of contour overlap with the other subject stations in this study. Based on the area of overlap of these facilities, three distinct overlap markets are created. Market #1 consists of AM stations KCMO and FM stations KCHZ, KCMO-FM, KMJK, KCFX and KCJK. Market #2 consists of AM stations KTOP and KMAJ and FM stations KCHZ, the KDVB permit, the KDVV permit and KTOP-FM. Market #3 consists of AM stations KTOP and KMAJ and FM stations KCHZ, KMAJ-FM, KWIC, KTOP-FM and the KDVV permit.

5. A study has been conducted to determine if ownership of KCHZ, in conjunction with the other subject stations, complies with §73.3555 of the Commission’s rules. In Market #1 the

city grade contour of KCHZ and KCMO-FM will be used to define the Radio Market #1 boundary. For Markets #2 and #3, the city grade contour of KCHZ and the KDVV permit will be used to define the Radio Market #2 and #3 boundary. We will determine the number of contributing stations which have sites within, or provide city grade service to, the Radio Market boundaries. To this total, we will then add the subject stations in each market to demonstrate compliance with the rules. Only those stations with transmitter sites within 92.0 kilometers will be considered as contributors to the respective markets. No other stations in which CMP has an interest will be considered, unless it is a subject station in the market under review.

6. Exhibit #3 is a depiction of the stations (commercial and non-commercial) providing service to the Radio Market #1 boundary. Exhibit #4 is a tabulation of the stations in Radio Market #1. A total of forty-five stations are shown, including the six subject stations.³ The number of stations in the Radio Market falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the Commission's rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. As such, CMP is in compliance in the non-rated Radio Market #1.

7. Exhibit #5 is a depiction of the stations (commercial and non-commercial) providing service to the Radio Market #2 & #3 boundary. A total of forty-one stations are shown. Exhibit #6 is a tabulation of the stations in Radio Market #2. A total of forty-seven stations are shown, including the six subject stations.⁴ The number of stations in the Radio Market falls in the forty-

3) There are numerous other stations in the market. They were not considered, however, as there were a sufficient number of stations to allow for common ownership of the stations under study.

4) See Footnote 3, *supra*.

five or more stations tier of §73.3555(a)(1)(i) of the Commission's rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. As such, CMP is in compliance in the non-rated Radio Market #2.

8. Exhibit #7 is a tabulation of the stations in Radio Market #3. A total of forty-eight stations are shown, including the seven subject stations.⁵ The number of stations in the Radio Market falls in the forty-five or more stations tier of §73.3555(a)(1)(i) of the Commission's rules. At this level, common ownership or control of up to eight stations, with no more than five in the same service, is permissible. As such, CMP is in compliance in the non-rated Radio Market #3.

9. Based on the compliance shown in both rated and non-rated markets, the acquisition of KMJK and KCHZ, in conjunction with the commonly owned stations in the markets, is in compliance with §73.3555 of the rules, with regard to the markets reviewed.

10. The foregoing technical statement was prepared on behalf of CMP Houston-KC, LLC, by Graham Brock, Inc., its Technical Consultants. All information contained herein is true and accurate to the best of our belief and knowledge. All data relating to AM and FM facilities was extracted from the CDBS database. Data regarding the relevant Arbitron market was determined using the BIA MEDIA Access Pro Version 4.6. We assume no liability for errors or omissions in those databases which may be adverse to the information contained herein.

5) See Footnote 4, *supra*.
