

Exhibit 2
FCC Form 350

The construction permit for FM Translator Station W252AS contains a special operating condition which requires the permittee to notify AM Station WAVZ (AM), New Haven, Connecticut, so that, if necessary, the AM Station may take steps to determine if Station W252AS will adversely affect the WAVZ(AM) radiation pattern. Station WAVZ(AM) has informally confirmed that no such steps are necessary. This application will be supplemented to provide a written statement to that effect.
