West Frankfort, Illinois 62896

June 12, 2003

In evaluating the proposed application for a new station, an outgoing interference study was executed using an ERP of 2.7 kW. The following stations showed possible interference: New application BNPTTL-20000830ADA. This station was evaluated for incoming interference using the OET-69 Longley Rice methodology. There was zero percent interference present when rounded to the nearest whole percentage point. The following table identifies the actual percentage interference from the incoming interference analyses.

Callsign	Fac ID	ARN	City	Class	Ovl Pop	Ovl Pop%
New	126844	BNPTTL-20000830ADA	Royalton	LPTV	0	0

The attached page identifies the considered list of stations when the outgoing interference analysis was executed.
